SUMMARY

B. Tech Computer Science student with strong foundations in software development and a keen interest in Software Quality Assurance. Proficient in Java and Python with hands-on experience in developing and testing web applications. Skilled in identifying bugs, validating functionality, and improving user experience through systematic testing. Detail-oriented and analytical, seeking an opportunity as a Software Quality Analyst to ensure high-quality, reliable software systems.

EDUCATION

Galgotias University

Bachelor of Technology | **8.75 CGPA**

2023 - 2027

Delhi Public School

Matriculation (CBSE) | **93.2%**

2020

Senior Secondary (CBSE) | **77%**

2022

PROJECTS

ServEase – Local Services Platform (*Ongoing*)

Tech Stack: HTML, CSS, JavaScript, MySQL

- Developed and tested a web application connecting users with local service providers
- Performed functional testing on features like authentication, booking, and request handling
- Identified and resolved UI inconsistencies and logical errors to improve usability
- Validated database operations and ensured correct data handling using MySQL

Dice Rolling Simulator

Tech Stack: HTML, CSS, JavaScript

- Developed and tested a web-based simulation tool using randomization logic
- Conducted test case validation to ensure accurate and consistent outputs
- Identified edge cases and improved UI responsiveness for better user experience

TECHNICAL SKILLS

- Programming Languages: Java, Python
- Core Concepts: Data Structures & Algorithms, OOP
- Web Development: HTML, CSS, JavaScript
- Database: MySQL
- Testing Concepts: Manual Testing, Test Case Design, Bug Identification
- Tools: Git, GitHub

CERTIFICATIONS

- NPTEL – Design Thinking
- Google – AI/ML Fundamentals
- Java Full Stack Development Certification
